LEADERSHIP.**

2015 / 2016 **Lead with Intention** offerings

# Why Lead with Intention?

Traditional “black and white” approaches to leadership no longer work in today’s complex environment. Successful leaders today know how to navigate ambiguity, and see dualities in their environment as opportunities to become stronger and more authentic leaders: they demonstrate both cognitive and emotional intelligence; understand the importance of setting a clear vision and remaining open to new possibilities; communicate with honesty and empathy; and equally value results and people. The Lead with Intention framework enables leaders to see leadership in this way and to practice the tools to help them succeed, both professionally and personally.

## HALF DAY FOUNDATIONS WORKSHOP

Explore a new framework for leading, recognize your own patterns, and get practical tools to maximize your leadership potential. You’ll come away with new-found perspectives and new approaches that you can take with you into both your personal and professional life.

### This workshop will appeal to leaders who are...

- Experienced and want to take a deeper look at their leadership style
- Looking for a fresh perspective that has a lasting impact
- Serious about developing themselves as leaders across all domains of life

### What's included in the workshop?

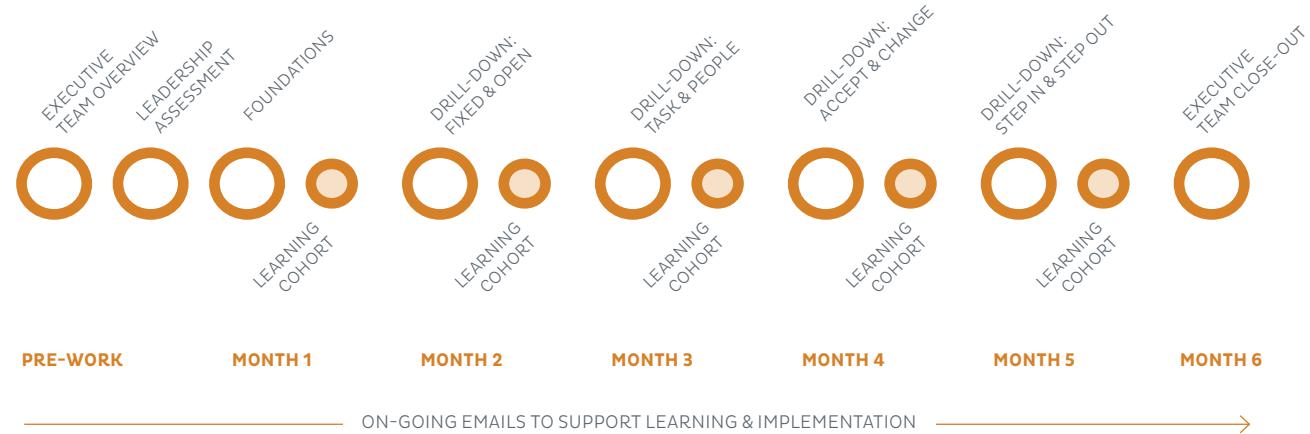

- Workbook
- Lunch
- Six months of free iCoach
- Exclusive access to online community of leaders

To schedule a workshop at your company email us at [info@mendelowconsulting.com](mailto:info@mendelowconsulting.com) or call 301.325.5123.

Or, attend one of our upcoming public workshops:

## SIX MONTH IMMERSION PROGRAM

Our six-month immersion program enables your company's high-potential leaders to internalize the fundamental principles of leading with intention through applied learning. Our flexible and customizable program can be facilitated both in-person or virtually.

### This program is well-suited for:

High-potential leaders at medium to large organizations who manage either direct reports or project teams.
